

Preface

The Enterprise Services Supplemental Field Engineering Handbook illustrates and describes Sun MultiVendor Products. The handbook is a reference manual for Sun service providers.

This handbook complements other Sun technical publications and education courses. We assume that Sun service providers who service and repair Sun products have access to these resources.

Handbook Organization

The Enterprise Services Supplemental Field Engineering Handbook contains board illustrations; jumper and dip settings; and configuration notes and is organized as follows:

Handbook Sections

Cycle5

Cycle5-SS

Cycle5-IP

Cycle5-IPG

HyperSPARC

90MHz hyperSPARC

Weitek

SPARC POWER μ P for SPARCstation IPX

SPARC POWER μ P for SPARCstation 2

JavaEngine

JavaEngine 1

SPARCEngine CP

SPARCEngine CP 1200

SPARC engine CP 1500

SPARCEngine Ultra

SPARCEngine Ultra AXi

SPARCEngine Ultra AXmp

End of Life (EOL)

Miscellaneous
